Education

B.E in Computer Science and Business Systems

Dec 2022 – Jun 2026

S.G. Balekundri Institute of Technology

CGPA: 8.29/10

- Relevant Coursework: Data Structures & Algorithms, DBMS, Web Development, Software Engineering
- Academic Achievement: Consistently maintaining position in top **10%** of the class

Experience

Transdisciplinary Research Trainee

Feb 2025 – Sep 2025

SGBIT Innovation Cell in collaboration with TLS

Belagavi

- Earned competitive selection from **200+** applicants for elite research program focusing on SDG-aligned technology solutions
- Collaborated with 5+ interdisciplinary teams to design and prototype SDG-aligned tech solutions, applying CSBS principles to 3 real-world challenges

Web Development Intern

Sep 2024 – Oct 2024

Digital Ipsum

Remote

- Architected **15+ RESTful APIs** using Node.js/Express.js, processing **1k+ daily requests** with comprehensive error handling and horizontal scalability.
- Boosted API performance by **20%** through implementing Redis caching strategies and refined database query execution.

Technical Club President

Jun 2024 – Sep 2025

S.G. Balekundri Institute of Technology

Belagavi

- Directed **500+** students through **10+** technical workshops increasing student engagement **by 60%** compared to previous year
- Executed **3** technical interview-style Codethons on HackerRank, focused on DSA and CS fundamentals, attracting **100+** participants and simulating real-world hiring assessments

Projects

Aarthik Sakhi (AI-powered Financial Platform) | *Next.js, Node.js, Express.js, MongoDB, OpenAI APIs*

GitHub Repository

- Engineered AI-driven financial literacy platform featuring **voice-enabled learning modules** and multilingual support targeting rural Indian communities.
- Deployed OpenAI API integration for interactive educational experiences, rapidly prototyping features that enhanced accessibility for **100+** users.
- Implemented **vernacular language support** into responsive UI/UX, optimizing backend APIs for multilingual accessibility.

XAI-Enabled Fraud Detection System | *Python, Scikit-learn, SHAP, Random Forest, Isolation Forest*

GitHub Repository

- Constructed ML pipeline combining Random Forest and Isolation Forest algorithms with SMOTE resampling technique, achieving **90%+ fraud detection accuracy**.
- Deployed **SHAP explainability framework** to generate **transaction-level interpretability**, strengthening stakeholder confidence in model predictions.

SGBIT IntelliHub – Academic Ecosystem Platform | *React.js, Next.js, Node.js, Express.js, MongoDB, Tailwind CSS*

GitHub Repository

- Architected full-stack MERN ERP system with **JWT authentication supporting 3 user roles** (students, faculty, HoD) and **15+ modular React components**.
- Designed scalable NoSQL schema with **10+** MongoDB collections, enabling secure and efficient role-based access control.
- The **CSBS department of S.G. Balekundri Institute of Technology, Belagavi** has proposed requirements for this platform, and the extended version of this project is currently in development.

Technical Skills

Programming Languages: JavaScript, Python, C++, Java, Typescript

Frontend Development: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Figma

Backend Development: Node.js, Express.js, RESTful APIs, WebSockets, JWT

Databases & Tools: MongoDB, Docker, Git, GitHub, VS Code

ML/AI: Scikit-learn, SHAP, Random Forest, Isolation Forest, SMOTE, OpenAI APIs

CS Fundamentals: DSA, OOPS, DBMS, CN, OS, System Design

Soft Skills: Leadership, Team Collaboration, Cross-functional Communication, Mentorship

Certifications & Achievements

- Earned Top 100 ranking in **Tata Imagination Challenge** from **400,000+** entries for innovative tech-driven idea submission
- Elected Technical Club President for demonstrating leadership, technical depth, and community impact across 10+ workshops
- Achieved certification in IoT and Autonomous Systems at **IIIT Sri City**, gaining hands-on exposure to embedded systems, sensor networks, and intelligent automation
